DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 1 recites the limitation "the observations" in line 3. There is insufficient antecedent basis for this limitation in the claim.
4. Claim 1 recites the limitation "the matrices" in line 6. There is insufficient antecedent basis for this limitation in the claim.
5. Claim 2 recites the limitation "the time domain averaged matrices" in line 2. There is insufficient antecedent basis for this limitation in the claim.
6. Claim 4 recites the limitation "the identification of the associated direction vector" in line 2. There is insufficient antecedent basis for this limitation in the claim.
7. Claim 11 recites the limitation " the identification of the associated direction vector " in line 2. There is insufficient antecedent basis for this limitation in the claim.
8. Claim 12 recites the limitation " the identification of the associated direction vector " in line 2. There is insufficient antecedent basis for this limitation in the claim.
9. Claims 2-3, 5-10 and 13-20 are also rejected because they depend on a base rejected claim.

Allowable Subject Matter

10. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
